Here is a simple sight word game that my students ABSOLUTELY LOVE!!

**WE CALL IT “SMACK-A-BUG”**.

Laminate and cut out bugs and word cards.

Two students spread out bug words between them. Each student has his or her own flyswatter. The “caller” has the cards with the sight words on them. The caller picks a card and reads it out loud. The first student to “smack” the correct bug gets to put it in his/her pile. Play continues until all the bugs have been smacked. This is a great game since there is no arguing about who got the bug first. If your swatter is underneath your opponent’s, you obviously got there first.

Student with the greatest number of bugs when the game ends is the winner. Depending on your classroom set up, you may want to put magnets on the backs of the bugs and have the students play at the whiteboard.

This is a great activity for practicing word recognition (the players) and word reading (the caller).
